DODGE THE BALL

HOW TO PLAY

>>> On opening the game, you will be met by the following screen.

Figure 1 The opening screen

1. The objective of the game is to move the mouse pointer (Represented by the white dot on the screen) and move it to the pointer (represented by the green square on the screen).

2. If the ball (represented by the green circle) collides with the player pointer, the game ends

3. The player is required to get to the target while avoiding collision with the ball on the screen.

4. Every time the player hits the target, the score is incremented by one.

5. If the player hits a certain score, a new ball is added into the game with each new ball moving faster than the previous ball as play progresses.
